4. ICT serving as a catalyst in promoting collaboration, together with "horizontal development" and "vertical development"	41
Section 3 Trust Fostered by "e-Relationships" that Assure Secure Internet Utilization.....	42
1. Concerns of ICT utilization and reaction to concerns.....	42
2. Enhancement of information utilization capability alleviates concerns.....	43
3. e-Relationship society achieving a balance between virtual and real world	45
Section 4 Toward Realizing Japan's Revival by Tackling the "I x C x T" Challenge.....	48

Part II: Update on ICT and Policy Outlook49

Chapter 4 Update on ICT49

Section 1 Trend of Internet Utilization	50
1. Status of Internet utilization	50
2. Challenges for safe and secure Internet utilization	50
Section 2 ICT Industry Trend.....	51
1. Economic size of ICT industry	51
2. Contribution of ICT industry to economic growth	51
Sector 3 Telecommunications Sector	53
1. Telecommunications market.....	53
2. Telecommunications service	53
Section 4 Broadcasting Sector	54
1. Broadcasting market	54
2. Status of broadcasting media uses	54
Section 5 Trends of Contents Market.....	55
1. Trends of Japan's contents market	55
2. Market size of the mobile contents industry.....	55
Section 6 Research and Development (R&D)	56
1. Research in information and communications industry	56
2. Technology trading.....	56
3. Number of Researchers	56
Section 7 Postal Service.....	57
1. Postal service	57
2. Correspondence delivery business.....	57

Section 8 Overseas Trends.....	58
1. Penetration of global communications services ..	58
2. Internet penetration rate by region.....	58

Chapter 5 Outlook for Information and Telecommunications Policies59

Section 1 Promotion of Comprehensive Strategy	60
1. Promotion of national strategy	60
2. Realization of a smart ubiquitous network society ...	60
3. Promotion of reform in communication and broadcasting fields.....	60
4. Enhancement of international competitiveness - promotion of Program for Enhancement of International Competitiveness -.....	60
5. ICT Productivity Acceleration Program.....	61
Section 2 Development of Information and Communications Policies	62
1. Development of telecommunications	62
2. Development of broadcast policy	63
3. Promotion of radio policy	64
Section 3 Establishment of a Safe and Secure Ubiquitous Network Society	67
1. Consumer administration in relation to telecommunications services.....	67
2. Promotion of information security policy	69
3. Ensuring reliability of electronic data	69
Section 4 Development of an Affluent and Vital Ubiquitous Network Society	70
1. Elimination of digital divide and promotion of information systems to local communities	70
2. Regional development, etc., utilizing the information and communications infrastructure	70
3. Promotion of barrier-free information.....	70
4. Promotion of informatization of administrative services	71
5. Promotion of ICT in disaster prevention field.....	71
6. Promotion of content policy	71
7. Creation and fostering of ICT venture businesses ...	71
8. Development of ICT personnel	72
9. Promotion of telework	72
10. Dealing with global warming issues in the ICT field.....	72
11. Promotion of ICT use for medical care	72
Section 5 Promotion of Research and Development	74
1. Research and development strategy to enhance international competitiveness of Japan.....	74
2. Development of a research and development envi-	

Environment.....	75
Section 6 Promotion of International Strategy	
.....	76
1. Promotion of international policy.....	76
2. Promotion of international cooperation.....	77
Section 7 Development of Postal Service	
Administration.....	78
1. Secure and smooth execution of privatization of Japan Post	78
2. Outline of correspondence delivery system.....	78
3. Promotion of new postal administration.....	78
