

Division S – GOVERNMENT, EXCEPT ELSEWHERE CLASSIFIED

Overview of the Division

This Division comprises, out of the state and local public organs, the Diet, courts, central government offices and their local branch offices and bureaus, prefectural government offices, municipal and ward offices, town and village offices , etc., all of which are the government and public agencies that are essentially engaged in legislative, judicial and administrative affairs.

The public office of government and public agencies engaged in non-authoritative operations for the interest of the public, are included in each relevant classification according to the type of operations, in the same manner as in the cases of general industries.

Establishments

An organization instituted by law as an independent organ is deemed an establishment as a unit for classification of the state and local public organs.

In cases where several units exist in one place, or an organization instituted by law as an independent organ is divided in locations, each unit and each divided organ is dealt with as a separate establishment. Also, the public corporations engaged in operations of railways, tramways, motor trucking, water transport, electricity, gas and water; the revenue-earning operations such as bicycle racing, horse racing, etc., and; some agencies of the government and public organs that are involved in the ownership and management of public housing, and in construction work under their direct management, are deemed to be independent establishments separate from the departments and agencies that are essentially engaged in administrative affairs.

Relationship between “Government, n.e.c.” and other industries

It should be noted that the government and public organs engaged in the following operations are classified in relevant industries other than “Government” according to the type of operations they conduct.
