2 milioni

Il fondo della Commissione europea che permetterà di perfezionare questo progetto

Si chiama Caresses ed è un progetto internazionale guidato dalla Università di Genova per la realizzazione di robot di assistenza domiciliare. Ma c'è di più: questo studio di cui l'ateneo ligure è capofila esplora nuove frontiere di ricerca realizzando veri e propri robot multiculturati, attenti cioè alle diverse culture e, dunque, alle più svariate esigenze.

L'Ateneo ligure è dunque, macchine artificiali destinate all'assistenza domestica il cui comportamento si adatta alla cultura delle persone assistite. Caresses è un robot

ロボット研究が  
と総務省の共同事業に採択  
を越えたコミュニケーションロボットを開発

事業概要

プロジェクト名	CARESSES (Culture Aware Robots and Environmental Sensor Systems for Elderly Support)
共同研究機関	北陸先端科学技術大学院大学 (日本)、中部大学 (日本)、名古屋大学 (日本) Advinia Health Care (イギリス)、Bedfordshire 大学 (イギリス)、Genova 大学 (イタリア)、Middlesex 大学 (イギリス)、Grenoble 大学 (フランス)、SoftBank Robotics Europe (フランス)
プロジェクト期間	平成28年11月1日～平成32年1月31日(予定)

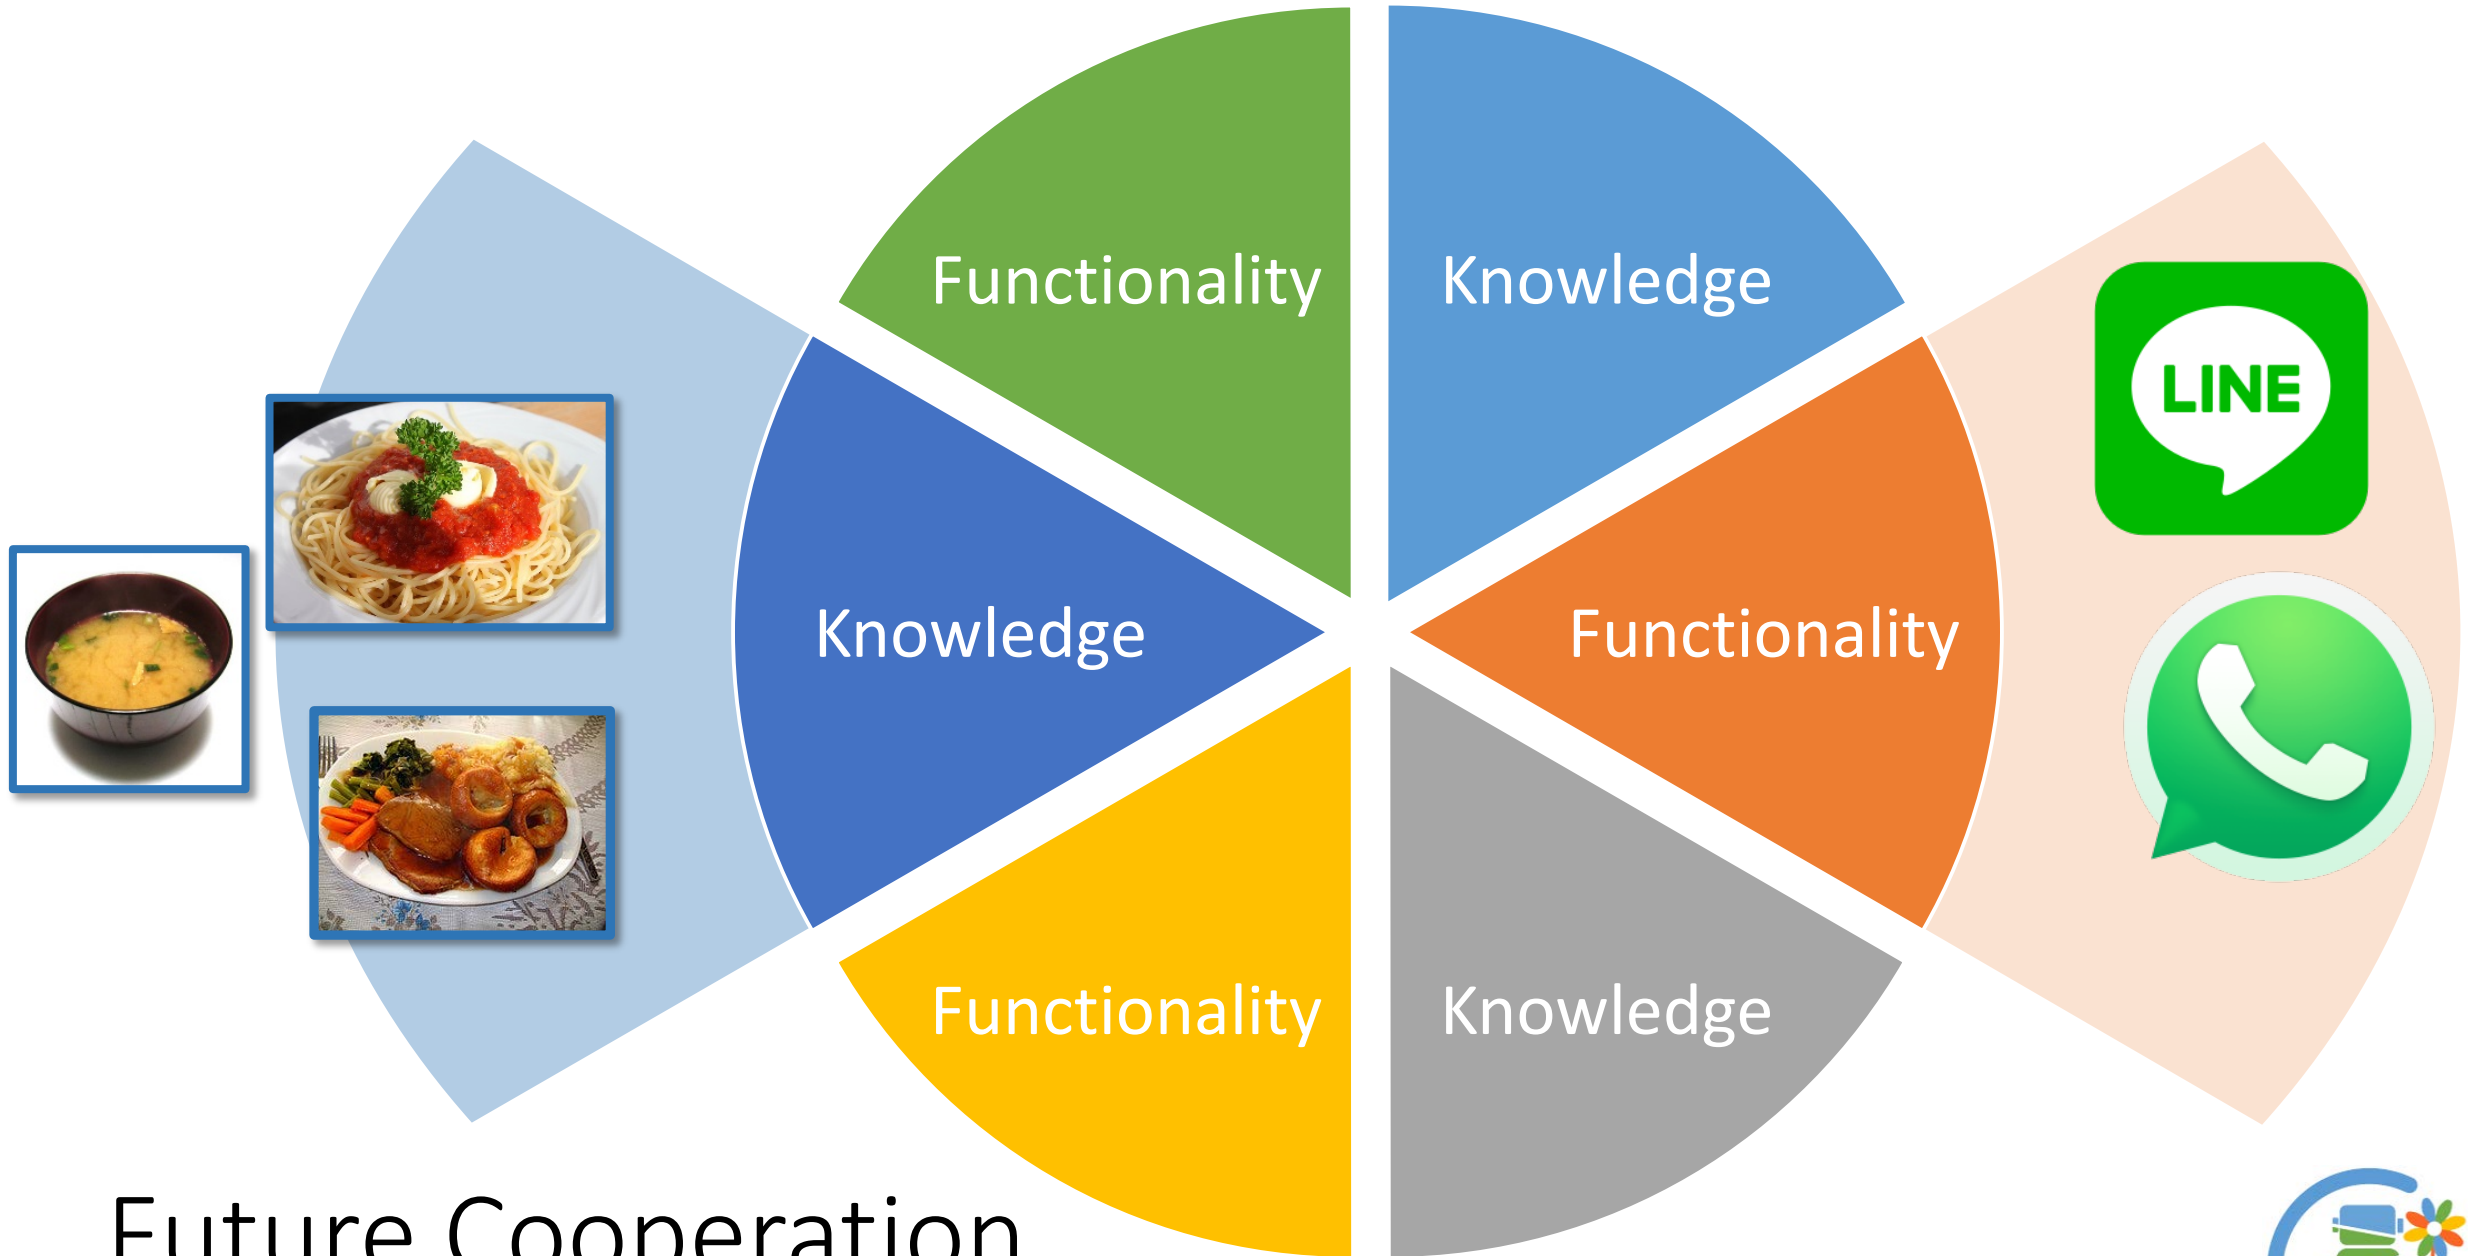

European Commission Community Research and Development Information Service
