

RADIO EQUIPMENT OF SPECIFIED LOW-POWER RADIO STATIONS SEPARATELY PRESCRIBED AND FREQUENCY TOLERANCE

(Note 28 of Table 2 of the Ordinance Regulating Radio Equipment)

January 27, 1989

Ministry of Posts and Telecommunications Notification No. 50

Finally amended in No. 433 on June 18, 2003

The radio equipment of specified low-power radio stations separately prescribed and the frequency tolerance shall be stipulated as follows based on the provisions of Note 31 of Table 1 of the Ordinance Regulating Radio Equipment (Radio Regulatory Commission Regulations No. 18 of 1950).

The frequency tolerance of the radio equipment of specified low-power radio stations which use emissions of frequencies listed in the left-hand column of the following table shall be as shown correspondingly in the right-hand column.

Frequency Band	Frequency Tolerance
Radio equipment which uses emissions of a frequency in a range of higher than 322 MHz to 323 MHz	$10 (10^{-6})$
Radio equipment for medical telemeters which uses emissions of a frequency in a range of higher than 420 MHz to 430 MHz or higher than 440 MHz to 450 MHz	
1 Radio equipment prescribed in 1 (3) of Ministry of Posts and Telecommunications Notification No. 42 of 1989 (the notification prescribing the applications, class of emission, frequency and antenna power of specified low-power radio stations; hereinafter referred to as "Notification No. 42")	$10 (10^{-6})$
2 Radio equipment prescribed in 2 (4) of Notification No. 42	$20 (10^{-6})$
Radio equipment which uses emissions of a frequency in a range of higher than 805 MHz to 810 MHz	$20 (10^{-6})$
Radio equipment which uses emissions of a frequency in a range of higher than 1,216 MHz to 1,217 MHz or higher than 1,252 MHz to 1,253 MHz and which is described in Article 1 item 2 (1) of Notification No. 42	$3 (10^{-6})$

Note: The frequency tolerance shall be $20 (10^{-6})$ in the radio equipment whose occupied bandwidth of the emissions to be transmitted is higher than 32 kHz to 320 kHz.
