

ASEAN-Japan ICT Work Plan for 2008-2009

(Draft)

TELSOM+J / TELMIN+J Meeting

Bali, August 2008

Ministry of Internal Affairs and Communications
JAPAN

Action 1 (1/2)

Facilitate high-speed connection among all National information infrastructure

- Japan supports ASEAN efforts and activities relating to ASEAN Information Infrastructure by sending experts to ASEAN events and organizing seminars on Next Generation IP based Network (NGN)
- Japan and ASEAN will jointly organize a seminar to share the understanding of a necessity of a smooth transition to IPv6 and to exchange information on it in light of the scarcity of the remaining IPv4 addresses

Action 1 (2/2)

Facilitate high-speed connection among all National Information infrastructure

- Japan and ASEAN will actively participate in the APT's "Workshop on ICT for Disaster Prevention and Management for ASEAN" to be held in the Republic of Philippines at the end of September 2008
- Japan welcomes ASEAN Member Countries conducting pilot projects in rural areas by making use of Japan's extra budgetary contributions to APT

Action 2

Promote international cooperation concerning Information security

- Japan will facilitate cooperation between Telecom-ISAC (Information Sharing and Analysis Center) in Japan and network operators in ASEAN Member Countries and will promote information sharing on ICT security
- Japan will host a high-level meeting on ICT security policy in the first quarter of Year 2009

Action 3

Encourage the participation of all stakeholders in utilization and development of ICT applications and services

- Japan supports ASEAN capacity in research and development concerning a Multilanguage Translation Technology
- Japan will conduct a feasibility study of the Satellite Based Networked Multimedia Education System for ASEAN Countries
- Japan will host the second CJK-ASEAN Human Resource Development Program in coordination with China and Korea

Action 4

Deepen regional policy and regulatory framework in the area of Next Generation IP based Network

- Japan assists ASEAN in reviewing the Radio and/or Telecommunications Law and the results of technological advances by providing relevant information on request and by organizing a training course
- ASEAN will invite Japan to ASEAN+J Telecommunications Regulators Council (ATRC) Meeting in Year 2009
