6 Registration for the event

Registration to this event is mandatory and will be carried out exclusively on-line via Designated Focal Points (DFPs) for ITU-R event registration. **The Radiocommunication Bureau has deployed, since May 2019, a new event registration platform where participants must first complete an online registration form and submit their registration request for approval by the corresponding focal point.** An ITU/TIES account is required from participants to submit a registration request and obtain registration approval from the corresponding focal point. There is no cut-off date for registration.

The list of ITU-R DFPS (TIES protected) as well as detailed information on this new event registration system, etc. can be found at:

7 Connecting to virtual meeting sessions

Access to virtual meeting sessions is restricted to event registered participants only. Delegates must access Working Party 5D virtual meeting sessions from the webpage for restricted virtual events:

<https://www.itu.int/en/events/Pages/Virtual-Sessions.aspx>

These virtual meeting session connections will be available 30 minutes before the starting time of each session.

No specific test sessions will be scheduled before the virtual meeting. However, delegates wishing to troubleshoot remote participation connectivity issues can do so during the 30 minutes period prior to the start of the first session of the day. It is highly recommended to verify the connections particularly for those delegates who intend to actively participate in the discussions.

Since all ITU-R meetings will be convened as virtual meetings there is no need to contact the Bureau to request remote participation.
