

# Overview of the Project to Develop and Operate Data Centers in India (Additional Support)

- **Fund Corporation for the Overseas Development of Japan's ICT and Postal Services (JICT)**, together with NTT Global Data Centers Holding Asia Pte. Ltd (GDC HA), will **provide support through an additional investment of up to 91.2 million US dollars** for the expansion of the project to construct, develop, and operate data centers in India. This is additional support for the project\* for which the decision to provide support was approved on October 24, 2022.
- Providing additional investment through this data center project, which requires substantial capital investment and a long payback period, JICT will accelerate the overseas business expansion of Japanese business operators with expertise and technology in data center development and operation and further strengthen their international competitiveness in this field.
